Big Five personality test results: <https://www.truity.com/personality-type/ISTP>

The test results listed above will be paramount in creating understanding and clarity to my other team members about the skills and personality I possess so that these attributes can be used simultaneously with other team members to assist in achieving the goals our group has set out to achieve. My attributes can complement others and vice versa so that what one team member is lacking in, that gap can be filled by my experience and I can help to support and instill knowledge towards that member and others like them.
